EDUCATION

- ❖ Btech in CSE| Medicaps University   *CGPA*: *7.95/10* | 2021-2025

- ❖ XII | SBS Education Park   78.6%

- ❖ X | Sandipani Academy   *71.2%*

PROJECTS

- ❖ **Naman Portfolio** - Portfolio Website
  Developed a portfolio website using Html, CSS and JS
  showcasing skills, experiences, and projects in an engaging and visually appealing manner.

- ❖ **Codemize -** Real Time Code Editor (React.js, CSS, GSAP, Socket.io)
  Codemize is a real time code editor which let users connect view a room id and code
  Simultaneously , I used Reactjs and Gsap for developing frontend with animations
  And used Socket.io for real time communication,nodejs and expressjs for setuping
  Server.

- ❖ **Student Grade Predictor -** (Python)
  It predicts the grade of the student based on some inputs like drink/or not drink,go out
  with friends/not, study during exam/or not based on 15-20 fields it predicts the grade i
  used logistic regression to develop this project.

- ❖ **MedFlip -**Marketplace for Medicines (Reactjs,mongodb,expressJs,nodejs)
  It is a full-stack web application, that facilitates users in reselling unused medicine and
  purchasing medicine through its platform,managing medications and testimonials with user
  authentication and CRUD functionality.
